Collection Systems & Diversion Activities - 2009

1 This module is locked. You will not be able to save any modifications made to this page.

A * indicates a required field

Diversion Activities

* Did your county have any household hazardous waste events?

Yes

Disaster Recover Diversion

Comment on any disaster related solid waste activities that may have influenced diversion efforts with the county.

There were no disaster-related solid waste activities in Madison County in 2009.

Source Reduction Activities

Describe source reduction and reuse activities by public or private entities by jurisdiction.

Madison County began a drop-off recycling program in 1996 using its convenience centers as collection points. The program currently collects non-ferrous metals, newspapers, cardboard, latex paint, and used tires at ten centers.

The City of Jackson began a drop-off recycling program ("Going Green") in 2008. The City collects all types of paper, cardboard, and plastics 1 and 2 at three locations. The program is operated by Southeast Recycled Fiber LLC, a private business contracted with the City.

List any restrictions the county or region places on collected wastes (Examples: No paint cans, no gas tanks, no monitors, etc.).

Only residential wastes are collected--no brush, construction/demolition wastes, liquids, chemicals, etc., are allowed.

Convenience Centers

Convenience Center #1

* Name of Convenience Center: Airport

* Address: 111 Smith Lane

* City: Jackson, TN

* Zip: 38301

* Permit Number: CCC-57-101-0008

* Phone #: 731-424-7522

* Does this Convenience center act as a transfer station? No

Convenience Center Summary

Please identify ANY changes that occurred to your convenience center(s)?

Used tires are now collected at H. O. Forgy Convenience Center.

The State of Tennessee will input the number of County Convenience Centers required as computed using this worksheet (click here):

* Total number of County Convenience Centers present in County: 10

* Difference: -7

If you have fewer convenience centers in the county than are required, what steps will be taken to provide collection assurance?

Not applicable.

County Public Collection (Green Box)

* Does your county have any green boxes? No

* Name	* Address	* City	Number of receptacles

* Does your county have any recycling drop off locations not associated with convenience centers? Yes

* Name	* Address	* City	* Check all materials collected:

* Program Tennessee Department of Environment and Conservation/Madison County Sponsor: Government

* Program Effectiveness:

Positive Results

* Program Type:

Advertisement; Recycle Guys; Community Outreach

* Program Target:

Adult/General Public; Media; Civic/Environment

* Number Served:

County-Wide

Narrative:

Madison County handles publicity for this annual event through payments by the City of Jackson Stormwater Management Program.

Educational Program #2

* Program Name: Chipping of the Green Christmas Tree Shredding Program

* Program Sponsor: Keep Jackson Beautiful

* Program Effectiveness:

Positive Results

* Program Type:

Advertisement; Recycle Guys; Community Outreach

* Program Target:

Adult/General Public; Children/Educators; Media; Civic/Environment

* Number Served:

County-Wide

Narrative:

Keep Jackson Beautiful sponsors the annual Chipping of the Green Christmas Tree Shredding Program in December and January. The 2009 program was the 29th annual event.

Educational Program #3

* Program Name: Elementary and Secondary Environmental Education Programs

* Program Sponsor: Keep Jackson Beautiful

* Program Effectiveness:

Positive Results

* Program Type:

Classroom

* Program Target:

Children/Educators

* Number Served:

1001-5000

Narrative:

Keep Jackson Beautiful provides environmental education resource packets for elementary and secondary school students, the "Ring Around the School" Program to collect litter around schools, free bulb giveaways at schools, and other similar environment-friendly programs.

Educational Program #4

* Program Name: Environmental Education Programs for the General Public

* Program Sponsor: Keep Jackson Beautiful

* Program Effectiveness:

Positive Results

* Program Type:

Community Outreach

* Program Target:

Adult/General Public; Business/Industry; Government/Institutional; Civic/Environment

* Number Served:

501-1000

Narrative:

Keep Jackson Beautiful offers a speakers' bureau with lecturers addressing a variety of environmental issues, sponsors the "Great American Clean-up Program," the "I Spy" Litter Reporting Program, etc.

Educational Program #5

* Program Name: Publicity on Latest Solid Waste and Recycling News

* Program Sponsor: City of Jackson/Madison County Government

* Program Effectiveness:

Positive Results

* Program Type:

Advertisement; Community Outreach

* Program Target:

Adult/General Public; Business/Industry; Government/Institutional; Media; Civic/Environment

* Number Served:

County-Wide

Narrative:

The City of Jackson and Madison County Government provide articles for the local newspaper updating citizens on the latest news about solid waste services, recycling programs, etc.

Educational Program #6

* Program Name: SWTDD E-NEWS

* Program Sponsor: Southwest Tennessee Development District

* Program Effectiveness:

Positive Results

* Program Type:

Advertisement; Community Outreach

* Program Target:

Business/Industry; Government/Institutional; Civic/Environment

* Number Served:

101-500

Narrative:

The Southwest Tennessee Development District distributes "SWTDD E-News," a monthly, on-line newsletter, to government and business leaders in Southwest Tennessee. The newsletter includes news on solid waste and recycling issues from TDEC and other information sources.

Educational Program #7

* Program Name: SWTDD Schools Recycling Awards Program

* Program Sponsor: Southwest Tennessee Development District

* Program Effectiveness:

Positive Results

* Program Type:

Classroom

* Program Target:

Government/Institutional; Children/Educators

* Number Served:

5001-10,000

Narrative:

SWTDD began a Schools Recycling Awards Program in 2009 to recognize and honor those schools within the SWTDD that have active recycling programs. Awards for greatest participation for 2010 will be announced on Earth Day 2011. Twelve schools including three in Madison County have enrolled as participants for 2010.

- A * indicates a required field

Solid Waste Planning - Detail Strategies on Diversion

The Region's 10-Year Plan outlined a strategy to manage solid waste. In lieu of developing a complete update of this Plan as required by TCA 82-211-814, answer the following questions in as much detail as possible. These questions should be answered by the government body responsible for directly determining solid waste policy within the region.

* Name and title of individual(s) who answers the following questions

Jeff Reece, Environmental Coordinator, Southwest Tennessee Development District

st Looking back on the Plan from this current year, what changes have been made in the way the county handles & prioritizes SW?

Drop-off recycling programs have been implemented by both Madison Couty Government and the City of Jackson.

- * List and discuss the three largest obstacles to your solid waste disposal system.
 - 1. Fundina
 - 2. Population growth in certain areas of Madison County may create a need for new or expanded convenience centers in those areas.
 - 3. Used tires collection program--collection, handling, processing.
- * In the coming years, how do you plan to handle disposal of waste differently to better address these issues?

Local governments will continue to monitor costs closely to ensure that local citizens receive the best solid waste management services for their tax dollars. Jackson and Madison County will continue to provide the services and facilities needed to operate first-rate collection and disposal programs.

- * List and discuss the three largest obstacles to your waste reduction/recycling system.
 - 1. No curbside services offered anywhere in Madison County.
 - 2. Used tires continue to be a problem with large amounts of paperwork required by the State. The amount of money the County receives from the State each year for the used tires program is inadequate and the County is forced to supplement its operations from general funds.
 - 3. Auto fluids and paint contaminate recyclables.
- * In the coming years, what new programs, or modifications to existing programs, will be enacted to increase the amounts of material being reduced/recycled?

Curbside recycling programs are needed but currently there are no plans to offer them. Some additional items could be added to the items currently being collected for recycling by both Madison County and the City of Jackson.

Improvements Remediation

* Facility Improvements - Project any facility improvements needed for processing and/or managing solid waste and diversion efforts.

Some convenience centers may need to be upgraded.

* Monitoring Cost Projections - Project any future monitoring, remediation, or mandated improvements over the next five years by the county for county owned solid waste facilities, including convenience centers or transfer stations.

Monitoring will continue as in the past. No remediation or mandated improvements are anticipated in the near future.

Waste Stream Estimate

Give approximate percentages of each category of waste that make up your county's MSW stream.

* Residential	* Commercial	* Institutional	* Industrial
40.00%	20.00%	15.00%	25.00%

Successes and Setbacks

* Describe any setbacks encountered in your solid waste management program and how these setbacks will be resolved in future plans.

No setbacks.

* Describe your successes in the implementation of your Solid Waste Management Plan. What are you doing well to promote waste reduction?

Madison County's convenience centers are very well-run. The centers receive more than one-halfmillion visits per year. Complaints are few while the level-of-service is high.

The Madison County HHW collection events are always popular. Efforts to promote these events appear well-designed and targeted to the right audience.

* Describe how you manage each of the following problem wastes: batteries, paint, electronic scrap, tires, oil and antifreeze. Please include information on any difficulties you have had with each.

Batteries collected at HHW events; paint at convenience centers and HHW events; electronic scrap at local metals recyclers; tires at convenience centers, HHW events, and tire dealers through Mac's Tires; used oil and antifreeze at automobile supply companies and HHW events.
